

SECURE YOURSELF WITH THE FULLSTOP SECURITY LINE

The security Line has been developed as a total package to deprive the thief of stealing your caravan. Each product has been developed and designed to ensure maximum safety and to make use as easy as possible for you. Don't just choose a product, but opt for the Fullstop Security Line.

At the heart of each slot is a British slot from Lowe and Fletcher. Lowe and Fletcher has been making all locks by hand for 100 years. The enormous experience they have ensures perfectly fitting and unique locks.

The Nemesis Ultra, Saracen Gullwing and Saracen Winterhoff all have SCM certification and are therefore accepted by Dutch insurers.

EM050011 – NEMESIS – WHEEL CLAMP WITH MAXIMUM SAFETY

The Nemesis wheel clamp, which is attached to the wheel as an immobilisation system, offers optimum protection against theft of caravans, campers and other vehicles. The wheel clamp fits on 10" - 20" wheels with a tire width between 145 - 245 mm. This wheel clamp makes it impossible to drive or push the vehicle to which it is attached. The safety bolt ensures a very high safety level.

EM050012 – NEMESIS ULTRA – LIGHT WHEEL CLAMP

The patented design ensures that the wheel can no longer go in any direction. The supplied wheel bolt is suitable for use on caravans and trailers with steel and aluminum rims. The Nemesis Ultra is super light in weight and compact design very easy to store. The Nemesis Ultra can be installed within a few seconds be installed with just one hand. A perfect product for both safety and security use.

EM050016 – SARACEN ULTRA – CHEAP CARAVAN AND TRAILER COUPLING LOCK

The Saracen Ultra is an inexpensive clutch lock that is designed for quick towing be mounted. It is a high-quality anti-theft lock for caravans and trailers. The Saracen Ultra is suitable for the AL-KO types: AK130, AK160, AKS1300, AKS2004 & AKS3004.

EM050015 – SARACEN KNOTT/AVONRIDE – COUPLING LOCK FOR KNOTT/AVONRIDE

The Saracen Knott-Avonride model is suitable for caravans with a Knott-Avonride coupling. This link is not widely used in Europe, but the link lock is also suitable for trailers with a generic coupling.

EM050014 – SARACEN WINTERHOFF – CLUTCH LOCK FOR WINTERHOFF

The Saracen Winterhoff has been specially developed for couplings from Winterhoff, including the WS3000. The lock fits perfectly on the couplings, prevents rattling noise and is resistant against crowbar attacks.

EM050013 – SARACEN GULLWING – COUPLING LOCK FOR AL-KO

Saracen Gullwing is a clutch lock with optimum theft protection, can be installed within 10 seconds and is super light. In addition, the lock can be used on moments when the caravan or trailer is still connected to the car. Ideal for use at gas stations and parking places. Saracen Gullwing is designed for the AL-KO types: AKS2004 & AKS3004.
